

## A beer lover's whisky: pür•geist hop-flavored whisky

pür•geist bavarian hop-flavored whisky is a hopped single malt inspired by the Bavarian tradition of distilling beer.

It is a collaboration of German distiller Franz Xaver Salzgeber, pür•spirits' Kiki Braverman and the Autenrieder brewery in Bavaria, Germany.

The secret to pür•geist lies in Franz Xaver Salzgeber's expertise and the experience the Autenrieder brewers have accumulated since 1650.

pür•geist is distilled from a richly malted bock-style beer with the addition of hops. The result is a dry and smooth sipping whisky that showcases the characteristics of both malt and hops. pür•geist is aged in bourbon barrels and finished in vintage grappa casks made from chestnut wood to instill refined floral nuances.

True to our philosophy, pür•geist is a low tech spirit made in tune with the natural environment. Each release features slight variations depending on the blend of barrels and on weather fluctuations - that is part of the fun and true for all genuinely natural products.
